Zine #4 - 20 - Interview With Phenomena (2/2)

Truxion, Sat 03 May 2008

Interview With Phenomena (2/2)

by Truxion/Brainstorm

-What do you think about Storm's attitude?

Who's Storm?

-Is Phenomena only a Demo Crew or will there be some other projects in future?

At the moment we are only doing demos and utilities but who knows?

-Is there a good future for the Amiga Scene?

Yes, since we're on it!!!

-Your opinion on modems.

The idea is good but cuz of the speed to many groups release half finished jobs.

-Is the design of a demo important for you?

Yes i think so just whatch the old megaforce demos, but sometime it is not possible to have a perfect layout. Here i like all groups who are doing ball demos to stop doing that. Noone likes them unless there is a new idea in them.

-How many time did you spend every day on your computers?

About 4 hours a day.

-Where you ever in Switzerland, if yes tell us something about it.

Well i, Dream Warrior, have relatives in Switzerland so maybe i will come and visit you sometime. The country is nice, almost as nice as Sweden.

-Until when will you stay on the Computer Scene.

Until we get tired or start to work as professionals.

-Do you like Speed-Metal?

Shit!!! The only real music is Synth. Depeche mode for ever!!!

Page 2/2

-Phenomena is a Legal-Crew. Why? Is there a severe Police in your country?

Nop, but it may come and then it does i don't have to be worry just cuz i put out my address in our demos and your mag.

PHENOMENA
SNARHEMS V25
S-73249 ARBOGA
SWEDEN

We don't mind to get other groups productions, like cracks but the reason for us swaping is to get our productions spread. So if you are interested just contact us, lamers won't get any answers.

-When and where was the next Phenomena-Party?

The last Phenomena party was in our home town, Arboga, between 7/1-9/1. We will probably not have another party cuz it was a lot of hard work.

-All right. That's all. Some last words?

COMPETITON IS NONE and hello to all other Phenomena members.

Thanks for answering this interview, we hope to see more cool designed demos from Phenomena.
