Interview With Unique

Savage of Unique has been interviewed for you by ORLANDO of Brainstorm.

A few sentences about your group and its past.

-Unique was founded in July 1989. Some members of Accession (Cool J / Santuu / Equalizer) joined us because Accession was getting so lame. Cool J started coding the vector-demo and it was released in late August. That was our passport for a good reputation in demo-making. Before our demo was released there were a lot of bullshit rumours going around in Finland about us. I think we are nowadays belonging to one of the best groups. I just heard that Deathstar is dead ! So we got Deathstar's best swappers. So watch out for us ! We got also Deathstar's cracker, so originals are welcome.

What is the aim of your group? (Crack/Demo/e.t.c.)

-Our aim is to do very cool demos, cracks and other things like killing lamers!! Ha Ha.

A few sentences about your local scene:

-We have only few competition here in Finland : Complex, Gate, Freedom Force. Because Deathstar is dead, we will hopefully rule the whole world ! There are not good groups in the area where we live, so we are the best ones in southern Finland.

Your opinion about copy parties?

-Copy parties are cool and it's nice to meet other cool people there. I hope there's going to be one soon here in Finland.

What about the police?

-Yes policemen are very kind people here in Finland. They are interested not at all about booking Amiga freaks. It's a shame, but this means also ST users. (By the way my father is policeman too, but this has nothing to do with the answer.)

Anything else you would like to say?

-Stay cool and watch out for our productions !
