Which parties do you intend to go to, and which parties would you like to go to? Please describe your personal experiences with your most favourite or impressive party you have ever been at:

I really don't know. I will most probably do my best to attend as many parties as I can. But then again; I rarely go to a party without a prod in my pocket.

I've attended all Breakpoint parties amongst lots of others, but BP 2005 was a hit for me! I think I laughed nonstop for 4 days.

The music has changed alot in my opinion. Not for worse, not for better. It just changed somehow.
