---

#### Minimum system requirements

OS: Microsoft Windows 7

Processor: Dual core processor

Memory: 2 GB

Graphics: DirectX 9.0c compatible

Display: 1366x768 resolution

Storage: 30 GB free hard disk space

*Internet Explorer 10 required. You must have the relevant Adobe and Microsoft applications installed in order to run the PCMark 8 Applications test. PCMark 8 is compatible with Adobe Creative Suite 6, Adobe Creative Cloud and Microsoft Office 2010 or later. Internet connection required for some features.*

*"The Home, Creative, and Work tests reflect the most common computer usage patterns - light home use, demanding media and entertainment activities, and typical office productivity tasks. The Applications benchmark is a real-world test of system performance using popular applications from Adobe Creative Suite and Microsoft Office. The Storage benchmark is ideal for testing SSDs, HDDs and hybrid drives, highlighting the real-world performance differences between devices. You can use the Home, Creative, Work and Applications benchmarks to test battery life too."*
